MOUNT ISA

Spider-Man: Brand New Day

Peter Parker is fighting crime full-time as Spider-Man in a world that no longer remembers him, and the pressure of watching his old friends move on without him sparks a change in him he may not be able to control. But that transformation might also be the only thing that can stop a shocking new threat — a powerful villain no one can even see.

Fall 2: Deadpoint

After losing her sister in a climbing accident, Jax sets out on a dangerous plank walk across Thailand's Mount Kwan with her sister's fearless friend Luce to find closure. When a rockslide leaves them stranded thousands of feet up, the two must fight to survive.

The Dog Stars

After a pandemic wipes out most of humanity, a lone pilot holds on in an isolated homestead with a hardened survivalist companion. A mysterious radio signal pulls him out into the unknown, chasing the hope that humanity still exists somewhere out there.

The End of Oak Street

A cosmic anomaly rips an ordinary suburban street from its neighbourhood and drops it somewhere unrecognisable. One family soon learns their survival depends on sticking together through the chaos.

Insidious: Out of the Further

A young mother raising her daughter in the house she grew up in discovers she can travel into the Further, and that she can bring back what lives there into the real world. Once the demons realise her power, they turn our world into their playground.

Tom & Jerry: Forbidden Compass

During a chase through a museum, Tom and Jerry stumble on a mysterious old compass that flings them into an ancient, myth-filled world. Cue new allies, magical mayhem and their usual non-stop slapstick chaos.
