MOUNT ISA

Toy Story 5

Woody, Buzz, Jessie and the gang's jobs are thrown into chaos when a brand-new tablet device called Lilypad arrives with her own disruptive ideas about what's best for their kid Bonnie. It's toys vs tech in the latest Pixar adventure — and playtime will never be the same.

Minions & Monsters

Set in 1920s Hollywood, the Minions accidentally become movie stars, lose everything, accidentally unleash monsters onto the world, and then have to band together to save the planet from the chaos they created. It's the ultimate big-screen family comedy — bananas, monsters, and mayhem included.

H Is for Hawk

After the sudden death of her father, Helen turns to the ancient art of falconry — training a wild goshawk named Mabel — to navigate her grief. Through that unlikely bond, she rediscovers the beauty of being alive.

Supergirl

When a ruthless adversary strikes too close to home, Kara Zor-El reluctantly teams up with an unlikely companion on an epic interstellar journey of vengeance and justice. This is a darker, grittier take on the DC hero — think less cape-and-smile, more revenge across the galaxy.

Backrooms

A furniture store owner discovers a mysterious portal in his basement that leads to a sprawling, maze-like dimension of endless eerie rooms — and he's not alone in there. It's a slow-burn horror that builds from unsettling dread all the way to full-on cosmic terror.

Scary Movie

Twenty-six years after outrunning a masked killer, the Core Four are back in the crosshairs — and no horror movie franchise is safe. The Wayans brothers are back to roast every reboot, remake, and "final chapter" that absolutely isn't final.
